No. S. P. C. 14571-82, *dated 14th February* 1935.

To

The Firms dealing in Pumping Sets.

Enquiry No. 1243.

PUMPING SET FOR KANKANHALLI POWER AND LIGHTING STATION.

GENTLEMEN,

I write to request you to be so good as to quote for a motor-driven horizontal centrifugal multi-stage pumping set conforming to the following brief specifications :—

Pump :—The pump should be of the centrifugal type equipped with Mitchel thrust-bearings, gun-metal or phosphor bronze impellers, and cast-iron or cast-steel guide vanes and have a delivery and suction of 4".

The pump should be capable of delivering 150 Imperial gallons of water per minute against a total head of 175 feet due to all causes.

The pump should be simple and rugged in design so as to withstand the effects of water containing fine sand or mud.

The above pump should be directly connected by means of a flexible coupling to a motor of the following specifications :—

Motor :—Squirrel cage, 110-volts, 25 cycles, 3 phase, 15 H.P. induction motor.

The motor should be designed for continuous operation with a temperature rise of not more than 40° C. above an ambient temperature of 35° C. and to withstand an overload of 25 per cent for two hours without injurious effects.

The windings of the motor should be specially impregnated to withstand the climatic conditions prevailing here. The stator core slots should be such that in case of a break-down the windings can be easily replaced.

The following accessories will also have to be supplied with the set :—

1 Pressure gauge of suitable size.
1 Priming funnel and air-cocks.
1 4" gunmetal gate valve.
1 Starter with thermal overload release and non-voltage release.
1 Pair of Flanges with bolts and packing.

The pumping set will have to be erected in the place of one of the two existing pumping sets at Kankanhalli occupying a floor space of 8′×2½′ and as such it is necessary that the dimensions of the pumping set as well as the floor space required should be clearly stated by the tenderers.

The tenders should also state the *overall* efficiency of the pumping set when working at ¾, full and 1¼ rated loads as well as the power-factor of the motor. Details of lubrication, stuffing boxes, etc., should be given.

A list of spares for the pump set such as, impellers and shaft and bearings for the pump and windings, etc., for the motor should be furnished with the tender, along with the cost of the spares.

Drawings showing the details of design and manufacture of the pumping set should accompany the tenders.

Alternatively you may also quote for a pump only of the specifications given above but suitable for being directly connected by means of a flexible coupling to either of the two 15 H.P. (Type TXT. 64) 1430 R.P.M., 25 cycles, 110 volts, 3 phase, squirrel cage, induction motors equipped with end shield bearings manufactured and supplied by Messrs. British Thomson-Houston Co., Madras, which are now in service at Kankanhalli.

The prices to be quoted should be for delivery c. i. f., Madras and f. o. r., Closepet (Mysore Railways).

This enquiry will close on the 8th April 1935.

No. S. P. C. 14560-70, *dated* 14*th February* 1935.

To

The Firms dealing in tents.

Enquiry No. 1244.

TENTS.

DEAR SIR/GENTLEMEN,

Please be good enough to intimate your best prices and the earliest time of delivery for the materials described in the schedule, given below.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellations of the order and purchases being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed " Quotations for Tents " with the above enquiry Number.

This enquiry will be closed on the 27th February 1935.

Schedule.

Item No.	Description of material offered	Quantity	Price quoted F. O. R.	Time of delivery
